Tiny Houses for our Heroes

After 4 years of working with Veterans and assisting them with home repairs, Lakeland Habitat for Humanity can see a need that is very serious. These are men and women who gave their time to serving, not asking for help. Many of them live in conditions that are so bad and very few will complain.

We feel a special obligation to help these people who are our heroes.

We need to make sure that our Veterans do not become homeless because of the deterioration of the homes they are living in. Most of these Veteran men and women need to be moved out of where they are and into a place where they can stop worrying about their home falling in around their head. We have one person living in a house that the roofer said, "If we put a new roof on this house the weight of the roof would probably collapse the house." Lakeland Habitat for Humanity is going to build a Veterans Community of Tiny Houses for our vets who are living in deplorable conditions and are hanging on to their pride by a thread. We want them to be able to live out the rest of their lives having a wonderful time... In a safe, clean, affordable and fun community. How we are going to do it we are not sure, but we have a start and that is the donation of 18 lots by the children of a World War II Veteran. Now all we must do is raise the funds to build these 18 homes. It seems daunting but as our Advisory Council Member, the late Father John would say, "Don't worry Claire, the money is there, all we have to do is ask people to open their wallets." I know it will not be quite that easy but will start with \$1.00 and go from there!
